

PSA has been a leading provider of adult and pediatric private duty nursing services throughout the nation for over 20 years. Highly recognized for the exceptional skills of our nursing professionals in caring for medically fragile children, PSA ensures the same high level of service and care for our adult patients – experience you can trust, high-quality, clinical care you can count on.

Through the use of a family-centered care approach, PSA nurses work closely with the family to build confidence and create and implement the right care plan. Care that supports family involvement. Care that improves the quality of lives and fosters independence. Care that gives patients and their families dignity, respect and hope.

PSA offers*

- 24/7 Hourly Care
- Highly Skilled Adult Nursing Care
 - Registered Nurses
 - Licensed Practical and Vocational Nurses
- Occupational & Physical Therapists
- Speech Language Pathologists
- Social Workers
- Certified Home Health Aides
- Continuous Education & Support
- Easy, Prompt Referral Services – accepts all payer sources

Dedicated Quality Improvement

Every PSA location is fully licensed and accredited by the Community Health Accreditation Program (CHAP). In addition, we employ full-time internal clinical staff to monitor and revise clinical policies for optimal outcomes.

Compassionate, Confident, Committed Care

Treating each child with the care we'd want our own family members to receive — by knowledgeable caregivers maintaining the highest level of integrity. In addition to our trained home care nursing professionals, through PSA each home care family has access to a:

- Clinical Staff Supervisor for clinical care plan supervision, scheduling, home assessment and coordination
- On-Call 24/7 Nursing Supervisor for immediate emergency access

Efficient Care Management

A full-time PSA care coordinator is assigned to each case to fully understand the patient's needs and associated costs - focusing on optimum outcomes and cost containment. We work closely with payers to provide cost-effective quality care, comprehensive patient assessments and on-going patient status and satisfaction updates.

Patient & Employee Safety

We consider the safety of both our patients and employees a top priority. Our internal risk management department enforces strict safety and security standards and provides continuous education for all PSA employees.

Fast, Easy Referral Process

It only takes one call to your nearest PSA location to initiate PSA's care management services. We understand the difficult task case managers and discharge planners have in fulfilling home care needs as quickly as possible. For more complex care situations, we offer easy toll-free access to a national PSA case manager who is experienced in helping you move swiftly through the care process in terms of payer requirements, complicated diagnoses and complete coordination of care.

Service You Can Trust

All PSA employees are carefully screened and qualified to maintain our high standard of excellence. From weekly visits to 24-hour care, we make every effort to fulfill your needs — you can trust PSA to be there.

PSA HealthCare – leaders in providing high quality, cost-effective home care to our patients and their families.
